I think so....like Matt said, I think there is a federal records requirement for 50 years. On the east coast, EPA has commented to include this type of information in our SAPs and so I found some SAPs yesterday that have addresses like shown in my attached working version of Worksheet 29. I am just not sure if those are the same addresses and processes for west coast work so trying to figure it out.....if you know or find anything useful, please let me know!

That's a good idea. I'll put it in my list.

Kim, we're not promising to keep records for longer than 7 years are we? Other than admin record applicable information (i.e. Work Plan, RACRs which the Navy saves).

Hey, just something to think about for EPA Specific Comment 2 & 3 where they want the records to be maintained for longer than 7 years. It may be good to check what the Federal Records Act say about records retention for how long a record is to be maintained and respond accordingly.

I don't have any other comments on this.

Hi Danielle,
Attached are the updated RTCs to address comments.
Thanks!
Kim

Hi Kim,

Attached are my comments on the SAP RTCs. I'll get you comments on the red-lined on Monday.

I only have one comment on the SAP RTCs.

DTSC Comment 8 is about a mention of UC-2 on Worksheet #10. I didn't look back at the SAP to determine the context but should UC-2 be referenced in the Parcel G SAP?

Best regards,

-Matt Liscio
